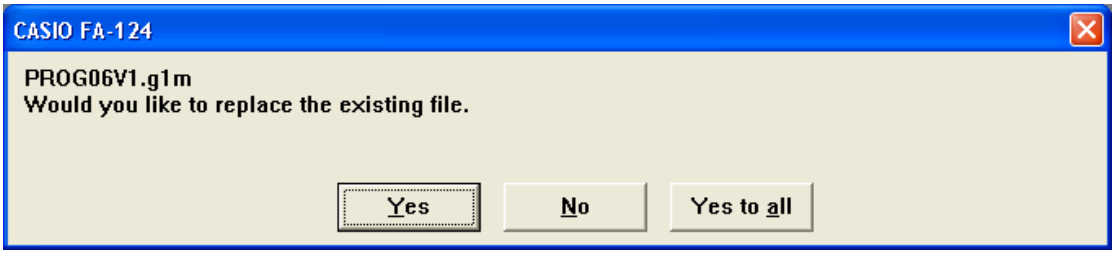
fxNEWS
Support for all Casio fx-9860G models

Installing Updates – Automatically

Occasionally updates may be included on the fxNews CD. This may be for a variety of reasons

- Improvements in performance
- Improvements in display
- Fixing of typos
- Fixing of bugs or errors

All that is required is to install the CD contents as usual and you will be prompted to overwrite the old version with a message such as



Simply click Yes and the latest version of a set of programs, spreadsheets or eActivity will replace the old set in storage memory. As soon as you copy the program file or spreadsheet file into main memory the updates are ready to be used.

Note that if you have modified any of the original items, you should save a copy of your modified program, spreadsheet or eActivity under a different name or in a different folder.
